

Republicans to Vote out of Office n 2024

The 2019 edition of this book provided a list of Republicans who disqualified themselves from office as protectors of the Constitution, Democracy, and your freedoms. In the same year a group of established and respected conservative Republicans formed the **Lincoln Project** in an attempt to save America from the attacks on the Constitution and on Democracy by then-president Trump and his representatives and senators. One of the Lincoln Project's actions was to identify, and promote voting out of office those senators and representatives who clearly proved they were enablers in the cult of Trump and that their allegiance was to him, rather than the Constitution and Democracy.

That list was provided for voters in individual states to identify those Republicans running for office in 202 who placed Trump and their own careers above the interests and protection of Democracy, the Constitution, and your freedoms. The recommendation was to vote those identified (by state for the national election) Republicans out of office in the 2020 election.

Sadly, the Republican party of 2023 is nothing more now than the cult of Donald Trump and his political (Republican representatives and senators at state and national levels) enablers. Now virtually all members of the Republican Party at national and state levels defend and support Trump, claiming to believe his lie that the 2020 election was stolen. Aided and abetted by Fox News, members of the cult of Trump (and there were **74,223,369** of them who voted for Trump for president in 2020, making his cult the biggest of all time.) still believe only what Trump and Fox News tell them, believing that all lawsuits and indictments brought against Trump are baseless witch-hunts. And they claim that they will vote for him in 2024 if he is the presidential candidate, even if indicted, even if found guilty by juries of their peers, and jailed.

Such being the case, ALL Republicans, representatives and senators, at state and national levels, must be voted out of office if Democracy, the Constitution, and your freedoms are to be preserved.
