

Appendix 1 —Senators and Representatives to vote out of office in 2022 because of their support of ex-president Trump and their attacks on Democracy, the Constitution, and the safety, well-being, and freedoms of Americans of all races, sexes, and creeds.

In 2019 a group of established and respected conservative Republicans formed the **Lincoln Project** in an attempt to save America from the attacks on the Constitution and on Democracy by then-president Trump and his representatives and senators. One of the Lincoln Project's actions was to identify, and promote voting out of office those senators and representatives who clearly proved they were enablers in the cult of Trump and that their allegiance was to him, rather than the Constitution and Democracy. The four criteria used by the Lincoln Project to call-out enabling republican politicians were:

- Did they vote on to the amicus brief filed along with Texas' lawsuit to the Supreme Court that sought to nullify votes cast in MI, WI, PA and GA (all states that Trump lost)
- Did they object to the certification of Electoral College votes from at least one state, even after the insurrection of 6/1 occurred and their personal safety was in question
- Did they make public statements that cast doubt on the legitimacy of the 2020 election
- Did they refuse to vote to impeach or convict and remove Trump from office in 2017 and 2020

I added five other qualifiers as evidence these senators and representatives were against safeguards to our freedoms and right to life:

- Did they vote against reauthorizing the Violence Against Women Act. This act protected women against violence and the reason republicans voted against it was the provision that men who assaulted women could not possess firearms (the NRA told the republicans not to vote for reauthorizing the act and they complied, afraid of losing votes of NRA members).
- Did they vote against the Violence Against Asian-Americans Act.
- Did they receive contributions from the National Rifle Association to secure their votes against any form of gun control such as banning sales at gun shows and banning assault rifles.
- Did representatives vote against HR1 which would have prevented suppression of votes by minorities and did senators vote to filibuster the bill, thereby voting against Democracy.
- Did representatives vote against formation of select House committee to investigate January 6 2021 attack on Congress (senators did not vote on this bill).

Most of the republican representatives and senators identified below voted and acted more for ex-President Trump than for their constituents (unless they were White supremacists). These representatives and senators, all enabling members of the cult of Trump, should be voted out of office for the good of the country.

On a more positive note, all democratic representatives are up for re-election and should be re-elected. Democratic senators up for re-election who should be re-elected are: Mark Kelly (Arizona); Maggie Hassan (New Hampshire); Catherine Cortez (Nevada); Michael Bennett (Colorado); Alex Padilla (California); Richard Blumenthal (Connecticut); Rafael Warnock

(Georgia); Brian Schatz (Hawaii); Tammy Duckworth (Illinois); Chris Van Hollen (Maryland); Charles Schumer (New York); Ron Wyden (Oregon); Patrick Leahy (Vermont); and Patty Murray (Washington)

To determine what it would take for you to vote out of office your senators and representatives who stand by ex-president Trump rather than Democracy and the Constitution (and you), check them out in the ratings chart below for your state and vote accordingly.

Figure 1. Ratings chart by category. If checked with an x, senators and representatives voted in that category against Democracy, the Constitution, and you. Senator names are bolded. The four most serious offences against America (voting to keep Trump in office during impeachment, voting against the formation of a 6/1 House commission to clearly identify ex-president Trump’s (and others) part in inciting the 6/1 insurrection), and voting to suppress voting by minorities are identified by large, bolded **Xs**.
